

FRIENDS TO FOLLOW

Get More Social with SliceOK.com Friends to Follow

Want to get Oklahoma City's Slice Magazine crowd over to your Facebook, blog or other social site? Now, we'll feed your new social media posts onto the Slice Web Site and send our crowd over to your Page – automatically, 24/7!

Why do it? It's simple: We're a good match! We send our very socially inclined, upscale crowd over to your Page to get to know you and like you.

How does it work? Just point us to your social site Page so we can set up your account and feed – and start sending our crowd your way.

You don't have to do anything new or different. Our Friends to Follow tool publishes the first line or two from your new social post on SliceOK.com where our crowd sees it. Some will click on it and go over to your social site. Before you know it, they like you!

You've made a new fan – and, hopefully, a new customer. Simple is good!
